Vision for Event

The mission of this exciting event is to ignite and sustain the interest of local 6th-grade students in STEM education while showcasing the thrilling career opportunities available within our local industries. By connecting our young minds with these dynamic fields, we aim to inspire them to envision how they can make a positive impact on their community through STEM.

Sponsor Participation

We invite our sponsors to captivate the minds of these young students with a short, creative presentation or hands-on experiment (10-15 minutes) at their booths. These engaging demonstrations will be performed at regular intervals, providing an opportunity to showcase your industry and spark interest in the careers your company offers.

Giveaway Opportunities

Sponsors are encouraged to give away branded items that students can take home as lasting reminders of the day's excitement. Please ensure that all giveaway items are suitable for children and compliant with school policies (no weapons, sharp objects, or hazardous materials).

Event Details

- *****Expected Attendance:***** 500-600 enthusiastic school children
- *****Format:***** Rotating groups of students visiting each booth

Join us in making a memorable impact on the future of our community by inspiring the next generation of STEM leaders!
