

July 25, 2025

Dear Friends and Community Partners,

The Wharton County Junior College Foundation is proud to announce the Fourth Annual Super Science Alliance, taking place on Thursday, October 23, 2025, at the Bay City Civic Center.

This dynamic event continues to serve as a STEM-focused Career Day for junior high students across Matagorda County, connecting young minds with real-world career paths in Science, Technology, Engineering, and Math. Our 2025 theme—"Ignite Curiosity"—aims to spark imagination, exploration, and excitement for the future by introducing students to the many possibilities in local industries and careers.

Building on the strong momentum of previous years, we anticipate welcoming more than 500 students throughout the day from our partner school districts. Students will attend in scheduled groups, engaging in hands-on, interactive experiences designed to broaden their understanding of STEM and how it affects their world.

We are currently seeking industry and healthcare partners to serve as sponsors and exhibitors, hosting booths that highlight career opportunities and innovations in STEM fields. A sponsorship form is enclosed with details on levels of support and associated benefits for the 2025 event.

On behalf of the WCJC Foundation, thank you for your continued investment in our students and our community. Should you have any questions or need more information about this year's event, please do not hesitate to reach out. We look forward to collaborating with you to ignite curiosity and inspire the next generation of thinkers, creators, and leaders in Matagorda County.

Sincerely,

A handwritten signature in black ink, appearing to read "Jonathan Jeter".

***Presented by***

### ***Vision for Event***

*The mission of this exciting event is to ignite and sustain the interest of local 6th-grade students in STEM education while showcasing the thrilling career opportunities available within our local industries. By connecting our young minds with these dynamic fields, we aim to inspire them to envision how they can make a positive impact on their community through STEM.*

### ***Sponsor Participation***

*We invite our sponsors to captivate the minds of these young students with a short, creative presentation or hands-on experiment (10-15 minutes) at their booths. These engaging demonstrations will be performed at regular intervals, providing an opportunity to showcase your industry and spark interest in the careers your company offers.*

### ***Giveaway Opportunities***

*Sponsors are encouraged to give away branded items that students can take home as lasting reminders of the day's excitement. Please ensure that all giveaway items are suitable for children and compliant with school policies (no weapons, sharp objects, or hazardous materials).*

### ***Event Details***

- ***\*\*Expected Attendance:\*\**** 500-600 enthusiastic school children
- ***\*\*Format:\*\**** Rotating groups of students visiting each booth

*Join us in making a memorable impact on the future of our community by inspiring the next generation of STEM leaders!*
